AGCO Parts to Go App

The AGCO Parts to Go App is now available at your fingertips with your smartphone or tablet. The app provides interactive parts catalogs which present exploded view drawings. The drawings contain hotspots which are associated directly to part numbers for AGCO branded models allowing you to easily and quickly find AGCO Parts. Searches are enabled by Brand, Book Title (Model), Book Code, Page Title, Part Number, Part Description, and Serial Number (for select Brands). Initial release of the App will present the AGCO cornerstone brands which include Challenger, Fendt, Massey Ferguson and Valtra. Contact Trochu Motors today to download the app and have access to your parts books from the field.

Steps to Downloading the App:

- 1) The app will be available for download in the Apple App Store. An Apple iTunes account is required.
- 2) You can find the app by using the search feature of the store. Use keywords AGCO, Parts and book to search for the app.
- 3) Download the app to your device. The icon for the app looks like this.

- 4) To obtain a login to the AGCO Parts to GO app please contact Camille at Trochu Motors.
